## Time and distance tracker for healthcare professionals

### H-track

📅 March 2023 – April 2023

- A web app built for healthcare professionals who do home assistance
  - Users can track the distance traveled from one patient to another in a day.
  - Users can also track time spent and amount of treatments dispensed at each patient.
- 

## A platform for movie enthusiasts to gather together

### Movienight

📅 March 2023 – March 2023

- A platform where movie enthusiasts can create and attend events to watch movies together in a homey setting.
  - Users can select browse and select among the most popular movies, fetched from TMDB (API).
- 

## A boat rental platform in Zurich canton

### Seabreeze

📅 February 2023

- A platform where users can share and rent boats in Zurich.
- It is an Airbnb clone built with Ruby on Rails and Javascript.
